3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1, 3-7, 9-17, 19, 21, 23-27, 29 and 30 are rejected under 35 U.S.C. 102(e) as being anticipated by Straub et al (U.S. Patent No. 6,216,141).

As per claims 1, 9, 10, 19, Straub et al teach a method of distributing a document of a user, the document including at least one of textural and graphical information, the method comprising: registering document distribution services of a plurality of document distribution providers with a document distribution system controller, the document distribution services including at least one of print services, electronic mail services, and publishing services; receiving a distribution request for the document from the user at the document distribution system controller, compiling a list of distribution options for the document with the document distribution system controller based on the document distribution services of the document distribution providers, and presenting the list of distribution options for the document to the user *(see abstract, figs 1, 3, 4, 7, 11, 12 and their accompanied text, and column 2 lines 29-3 lines 67, 9 lines 9-46)*
